Nue Fusion 600 Standard MicroCurrent Machine

Dimensions: 16" L x 14" W x 7" H
Machine Weight: approx. 12 lbs.

Nue Fusion 600 Micro-Current Machine: Body and Facial unit; provides the option for estheticians to perform a dual treatment for the face and body. Firms, strengthens, tightens, contours, and sculpts the face and body with programming, individual intensity, and overall output of frequencies.

These signals of MicroCurrent trigger a myofibril reaction that contract the muscle while enhancing production of natural collagen and elastin. Because blood flow is increased oxygen levels are elevated in the epidermis and dermis leaving the skin firmer and instantly brighter.

Nue Fusion 600 MicroCurrent Machine features:

- | | |
|-------------------------------------------|------------------------------------------------------------|
| Pre-programmed i/c (integrated circuit) | 2,000 variations of pre-set programmes |
| Microprocessor controlled digital systems | Effective pulsed microcurrents with no polarization effect |
| Non-invasive | Progressive not aggressive treatment |
| Anti-aging benefits without down time | Cumulative results |
| Performed in a series for optimal results | Power: 115 volts, 50/60 Hz |

Micro Current Supply Kit includes:

- (1 pair) Double Sphere Wands - NF-003 hand held double ball wands
- (1 pair) Straight Bar Wands - NF-004 hand held bar wands
