25 minute Skin for Life Men's Facial with Mint Massage Treatment

Benefits: Skin for Life's Life Sustaining System (LSS™) delivery is the science that allows a man's skin a chance to become healthy, vibrant, and have long term benefits. Because of an increase in Androgen, a man's skin is about 25% thicker than a woman's skin. It is also a bit tougher. Our LSS™ delivery is a technology that allows for high versatility when performing skin therapies, no matter skin conditions or skin colors. This is perfect when combining progressive therapies with performance skin care. Skin for Life's philosophy is "**Protect, Maintain and Preserve skin for healthy, long term results**".
