

Nourishing Oil botanical extracts

Skin for Life's Nourishing Oil is a lightweight, nutrient-dense botanical blend formulated to repair and reinforce a weakened skin barrier. Packed with jojoba, argan, soybean, and macadamia-derived Ethyl Macadamiate, it restores essential lipids and locks in hydration without leaving an oily residue. It also features bisabolol, a calming agent effective for soothing inflammation associated with rosacea, acne, psoriasis, and general sensitivity.

Ideal for professional pre- and post-treatment use such as dermaplaning, facials, or massage it can be blended into moisturizers, serums, and targeted mask treatments to enhance hydration and barrier recovery. Apply alone when performing dermaplaning.

Ingredients:

Simmondsia Chinensis (Jojoba Oil), Caprylic/Capric Triglycerides, Ethyl Macadamiate, Argania Spinosa Kernel Oil (Argan Oil), Cannabis Sativa Seed Oil, Glycine Soja (Soybean Oil), Tocopheryl Linoleate/Oleate, Bisabolol.

How to use:

For extra lipid barrier protection mix 3-5 drops with moisturizer. May apply morning and night for very dry skin types.

It is not to be used as a serum. It is important to mix 3- 5 drops with a moisturizer or serum.

Blend well.

May use 5-10 drops directly on the skin when performing a Dermaplaning Skin Treatment. Nourishing Oil reduces unnecessary redness due to friction on the skin from the blade.

Skin Types and Conditions:

Dry Skin (lack of essential lipids), Sensitive Skin (chronic or temporary sensitivities), dehydration (lack of water), oily skin, seborrhea skin condition, acne-prone-skin, aging/mature skin, pigmented skin conditions (hyperpigmented skin discolorations), melasma, chloasma.

Retail Size: 1 FL. Oz.
