

PRODUCT DATA SHEET

Nue Skin 50 Professional Microdermabrasion Machine

Product Description

The Nue Skin 50 is a professional crystal microdermabrasion system designed to gently exfoliate and renew the skin for a smoother, brighter complexion. Adjustable vacuum and crystal flow provide precise treatment control while helping improve texture, dullness, fine lines, superficial discoloration, and congested pores. Built for reliability and ease of use, it is an excellent addition to spas, med spas, and professional skincare practices.
